

Deluxe Table Top L-Bar Shrink Sealers

Includes L-Bar Sealer, Film Roll Stand, Dual Perforator Wheels and Operator Indicator Lights

OVERVIEW

The Preferred Pack line of Deluxe Table Top L-Bar Sealers are designed for easy and quick shrink wrap packaging. The durable steel construction ensures durability and quality. Sealing time is controlled by an electronic timer. Includes work table which has a film separator, twin perforating hole punchers, and a film roller.

Easy to operate: Set the timer. Insert the product between two layers of centerfold film and press down on the sealing bar. Slightly pull the package away from the machine. The element wire will seal the edge and cut off the film. Timed sequence lights will indicate when the film is sealed. Apply hot air using a heat gun or shrink tunnel (sold separately) to shrink film tightly around the package.

Shrink wrap provides the ability to produce products that are free of dust, moisture and fingerprints. Shrink wrapped packages add value, keeping products clean while discourage tampering and shoplifting.

KEY FEATURES

- Cuts sharp, clean seals
- Extremely fast operation with built in timer
- Operator indicator lights
- All steel construction for heavy duty use
- Adjustable film rack with smooth rollers
- Twin perforating hole punch and film guides
- Film separator for center fold films
- Large work table

OPTIONS

- Shrink Tunnel (Table Top Model PP1606-20)
 - Fully re-circulating air chamber
 - Live roller rod conveyor
 - AC variable speed drive
 - Digital temperature control 0-400°F
 - Available in 110 or 220 volt

- Heat Gun
 - Variable temp 0-1100°F
 - Two-speed fan
 - Self-standing
