PP-918 PALLET JACK WEIGHING SYSTEMS

Having a scale built into your pallet jack will increase efficiency and productivity by eliminating the need to place your pallet on a scale to weigh, saving time and money. These Pallet Jack's are rugged, precise, efficient and cost effective. They are the ideal solution for mobile weighing.

FEATURES

- Unique and user friendly design
- Reinforced construction for heavy and long use
- Low-profile and tapered forks for easy entry into pallets
- Ergonomic full function handle for easy lifting, moving and weighing
- Effortless steering on flat or uneven surfaces
- Built-in NTEP approved load cells
- 120VAC 60 Hz AC adapter and rechargeable battery (operates up to 60 hours)
- Includes a built-in LCD display and optional thermal printer (P model)
- Units: lb and kg switchable
- Suitable for industrial pallets and crates

Easy to use Indicator with printer

Two wheel design gets stuck on wooden boards

Single wheel design helps prevent jack from getting stuck or breaking pallet compared to double wheeled designs

Small raised wheel inside for assistance rolling onto pallet

Super low 2.9" profile with tapered fronts for easy pallet entrance
